About us

Founded in March 2017, with registered capital of 15 million yuan, Chinsor has a team master the core technology in this filed. Dedicated to supply of semiconductor film physical deposition, chemical deposition and etching of precision parts, focusing on precision machining and parts surface treatment. We provides 2nd source new parts of PVD, CVD, ETCH field.

Company display-factory environment

QUALIFICATION HONOR

Chinsor has been certified as Jiangsu new high-tech enterprise, Wuxi Technical Center, Jiangsu SMEs and so on. We have certified by ISO9001 quality system thus we produce qualified products.

ISO9001 QUALITY SYSTEM CERTIFICATION

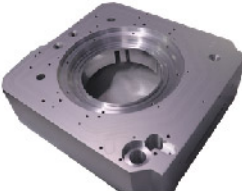

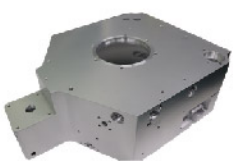

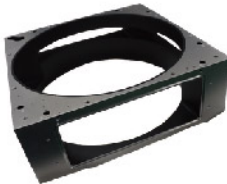

Semiconductor Manufacturing Expertise

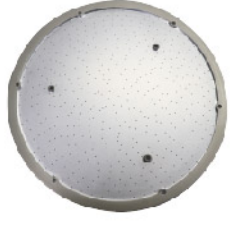

We are well talented in precise manufacturing of metal parts and fragile material parts for semiconductor trade. We have professional production lines and workers. Metals include aluminum, stainless steel and fragile materials include ceramic, quartz and silicon.

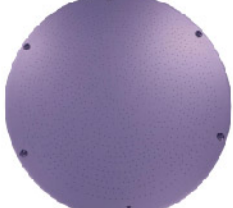

Chinsor began metal parts manufacture from 2018 and fragile material parts from 2020. We have achieved national compliment through 5 years research and working. Chinsor enjoys a high reputation. Both domestic and international well-known semiconductor manufacturers have carried out in-depth cooperation and Chinsor become their excellent suppliers. We have customers like below:

	Part Number: 0040-09001 Description: Chamber Body, Standard 4-6"		Part Number: 0040-39553 Description: CHAMBER BODY, DXZ
